New York (State)

The University of the State of New York

The State Department of Education

Reprinted from the Twelfth Annual Report of the State Department of Education

UNIVERSITY SCHOLARSHIP LIST, 1916

The University scholarships were established by chapter 292 of the Laws of 1913, and are maintained by the State under the direction of The University of the State of New York. Five scholarships are awarded annually to each county for each assembly district therein, making a total of three thousand such scholarships for the State. Each scholarship entitles the holder to the sum of one hundred dollars for each year he is in attendance upon an approved college in this State during a period of four years. A person entitled to a University scholarship may enter any college in New York State approved by The University of the State of New York, and may pursue any course except professional instruction in law, medicine, dentistry, veterinary medicine or theology.

Those entitled to University scholarships are such persons as receive college entrance diplomas during the preceding school year. Appointments are made from such a list of names in the order of their merit. In case of a vacancy or of a refusal to accept a scholarship, the pupil standing next highest on the list is entitled to the appointment.

The names given in the following list are of those pupils who have accepted appointment to the University scholarships in the various counties in 1916. The number preceding the name indicates the numerical order on the county list. The name of the pupil is followed by the percentage attained, the preparatory school, and the residence.

With each certificate of award to each scholar, there is sent a note signed by President Finley, which reads as follows:

With the opening of the new year the state scholarship law comes into full operation. The State has now three thousand scholars of The University of the State of New York as students in the colleges and universities of the State. As executive officer of this University through which the special interest of the State is expressed, I send you, as one of these, greetings and good wishes for the new academic year. May you be conscious of our solicitude for your progress and for the continuation of the excellence which recommended your appointment, and may you develop a sense of "State-mindedness" which will prompt you to give service to the State whenever opportunity offers.
